About Me

Hello! I'm **Nkomo Welile Lyvia**

A software developer who loves turning ideas into simple, beautiful digital experiences. With a background in computer science and a passion for coding, I specialize in creating web applications that are not only functional but also user-friendly. I enjoy working on projects that challenge me to learn new technologies and improve my skills. When I'm not coding, you can find me exploring the latest tech trends or contributing to open-source projects. I'm always excited to connect with like-minded individuals and collaborate on innovative projects. Let's build something amazing together!

My Skills

HTML

CSS

JavaScript

Python

Git & GitHub

Featured Projects

Landing Page

A responsive landing page showcasing a product with a clean layout and smooth interactions.

[Live Demo](#)

AI Poem Generator

An AI-powered app that generates creative poems from user input using JavaScript and APIs.

[Live Demo](#)

Weather App

A real-time weather app that displays temperature, humidity, and conditions using an API.

[Live Demo](#)

World Clock

A digital world clock showing time in multiple cities with an interactive, user-friendly interface.
